MOTIVATION

I am a Digital Artist who's passion for the web and interactive/visual media with bachelor's degree in Fine Arts and over 7+ years of professional experience.

Through my 5 years of studying Academic Art, I discovered my passion for digital art. I thereby experimented different art fields including Experimental, Video, Net, Pop, Visual Art and more.

From Sculpting real figures, creating 3d models and animation to Interactive web art. I finally found my real passion in **UI Development.**
